THE HOLIBAYS .- The annual return of the Christmas and New Year Holidays is close upon us, preceded by as delightful weather as heart could wish. Since we have, in the midst of unnumbered material blessings, national STURS STURS STURS strife and contention, we should be all the more careful to cultivate the social affections and cement anew the ties of relationship, love and friendship. Nothing contributes so much to this as kind remembrances, given and interchanged during the holidays. From Washington. Washington, Dec. 18.—Richmond and Norfolk papers of yesterday have been received.

The Centreville, Fairfax county, correspondent of the Richmond Dispatch writes, Dec. 15th, that the fortifications around Centreville are now completed and present quite a formidable appearance for field fortifications. They are built very strong, some of the works being bastioned forts, constructed in a manner that shows skillful engineering on the part of somebody, Gen. Beauregard, I presume. Some care seems to have been taken with the embrasures, which are built to combine convenience for handling the guns with the best method for protecting the men; they are very strongly built with hurdles and sand-bags, and will stand a heavy cannonading before giving way.

The armament of the boats having arrived from a place where they make most excellent guns, they have been put in position, and all that is now asked is for Gen. McClellan to bring on his Yankees.

Different artillery corps are drilling in these batteries nearly every day, and some have become proficient marksmen; all have attained perfectly the range of any point where a hostile battery could be planted.

A series of resolutions have been adopted by the Legislature of Tennessee relative to the opening of the Southern ports, and recommending that no crop of cottop be seeded the ensaing Washington, Dec. 18 .- Richmond and Nor

The Senate committee on Foreigh Affairs has the question of establishing diplomatic re-lations with Liberia and Hayti under advise-

From the numerous dispatches that have been received here to-day there is a fear expressed among people in different parts of the country that Government may be induced by some diplomacies to give the traitors up. I have the highest authority for saying that the possibility of their surrender under any necessity, does not now exist. The President is firm and impossible on this point. movable on this point.

Washington, Dec. 19—Captain George R. and will be at New York on Sunday.

Cook has arrived here from Boston with dis-patches from the American Minister at London The contents of the dispatches brought hither by the Queen's messenger to Lord Lyons, had not been communicated to our Government

up to one o'clock this afternoon. [Special to Commercial Advertiser.]

There is a report here this morning, which is generally credited, that one Lieutenant and four privates of the national troops on picket duty last night at Mount Vernon, were shot during the night. A regiment has been sent there this morning.

A Cabinet meeting was called for to-day, the subject of consultation doubtless being the demands of the British government in the Sildell and Mason affair.

Twenty two hundred rebel soldiers were size at Richmond.

The rebels have sunk hulks near Norfolk, rendering the approach by water to it impossible.

New Yoak, Dec. 19.—The Times says the Secretary of the Treasury is in town, and another general meeting of our associated banks was held this afternoon. The immediate object is given out to have been not to confer upon the acknowledged financial wants of the Government for the next six months, frankly stated by Mr. Chase to be \$275,000, but to arrange a matter of account involving the ten or twelve millions under the negotiation of the 18th of August.

It is possible the real question likely and to those soones honorably discharged by to be presented, to wit, the supply of \$375,000,000 to the Treasury between the list of January and the 30th of June, on the specie basis, which the proceedings of last night have declared to be the policy of the banks, will be profoundly appreciated by a general, generous and enlight—oned concert with the Government. It is more than possible that the operations of the Treasury and the movements of the associated banks of the Atlantic cities may go forward for some time to come, if not indefinitely, on the desired banks.

Secretary Chase stated that the present ballance with the associated banks will be sufficient for the wants of the Government until the middle of July, before which time he had confident in the didle of July, before which time he had confident in the combined boasility of the Walk Live Combined the principal contract of the which we have held for years, he was for the wants of the Government until the middle of July, before which time he had confident in the combined bossility of the BALKENY—Quiet; sales 1,300 bushels at 1365 2.00 bashels at 1365 2.00

Secretary Chase stated that the present balance with the associated banks will be sufficient for the wante of the Government until the middle of July, before which time he had confident expectations our military and naval operations will give brilliant and decisive results; and he did not doubt that the question with Great Britism would have a pacific colution. He made no proposition for further financial arrangements at this time.

Fortrass Monroc, Dec. 18, via Baltimore, Dec. 19.—The steamship S. R. Spaulding, which left Port Royal last Sunday, arrived at an early hour this morning. She stopped at Hatteras, leaving that place yesterday, and brings the mail and passengers.

Everything is quiet at Hatteras. Nothing has happened to disturb the usual monotony there, except the usual storm.

The schooner Charity, said to be owned by Senator Simmons of Rhode Island, arrived at Hatteras on the 15th inst., with an asserted cargo, including a large proportion of whisky. She also took a collector to Hatteras, and on arriving he procured a building from the Commisary, which he proposed using as a custom house. The Charity's papers, however, were very irregular, and on the 17th inst., Captain Warden, of the steamer Stars and Stripes, took the Charity as a prize to New York.

There is little news of interest from Port Royal. The Federal troops have fully eccupied the town of Beaufort. Large quantities of cotton continue to be gathered and brought to the coast.
